Gospel light through medical missions

Think of the impact you could have serving a lost person both physically and spiritually. Medical missions is an effective way to accomplish this.

Have you considered medical missions? Perhaps you have, but you have gotten lost in some of the complex details of how to prepare or how to plug in.

Medical missions has been an integral part of BMM's global outreach for much of our history, and we continue to see the importance of it. BMM continues to desire to see more medical missionaries at work around the world.

To clarify how BMM does medical missions and to give you tools for preparing better, I sat down with Dr. Joy Anglea, BMM's Medical Director, for a two-part interview.

Travis Gravley

Administrator for Church Relations and Enlistment
